

Before sending your RRS1100 to a Listener

1. Determine proper antenna, signal direction and antenna orientation for the listener using *DTV Reception and Choosing an Antenna* document provided by NBCI-CEPD, LLC (pdf downloadable from www.RRS1100.com).
2. Scan the unit before distribution (only if you have the listener's signal available at your location). Please see the *QuickStart Guide* provided by NBCI-CEPD, LLC (pdf downloadable from www.RRS1100.com) or the User Manual, Section 4.

If you do not hear the radio reading service, try repositioning the antenna and re-run the above Scan Procedure.

3. Distribute the RRS1100 and antenna to listener accompanied by the *QuickStart Guide* provided by NBCI-CEPD, LLC (pdf downloadable from www.RRS1100.com).

The dipswitch setting for your broadcaster, channel _____, is _____.

1 = On and 0 = Off.

**Please see the Dipswitch Setting Table at www.RRS1100.com
for additional channel configuration.**
